Front-End Developer | UI/UX Designer

Business driven professional with 3+ years of experience that really loves what I do, proficient in agile practices (SCRUM, Kanban), strong leadership and team player skills, passionate for design and web development. I´m detailed oriented software engineer. I really enjoy the challenges and I work hard increasing my knowledge constantly. 4000+ hours of programming using HTML5, CSS3(SASS/LESS), JavaScript, Jquery, Bootstrap, Angular.js, Gulp, NPM, Bower, Git, PHP, MySQL, Java, testing strategies such as TDD or BDD, Front-End/Back-End and UI/UX designer. CMMI advanced knowledge. strong leadership and team player skills.

Also I have hands on experience with automated testing tools(Selenium, Protractor, Fitnesse, Cucumber), continuous integration(Bamboo), and prototyping tools(Sketch, Balsamiq, UXpin, Invision).
